

Tool

55850.0000

Innovative wood connection systems for highest requirements.

Tool Beam puller and accessories

Beam puller with turn-adapter 55850.0000

Fix, tighten, done!

Span mm	570 - 720
Boreholes Ø 8 mm	16
Max. load capacity	20 kN

Commodities note Both beam pullers are delivered with our high quality transport box.

Assembly instructions 55850.0000

Convenient work

Lay the turn-adapter on the object and screw. Differently arranged boreholes allow a smoothly fastening on timber or masonry. The mounted to the adapter butt strap serves for the fastening in grooves or to edges.

Therefore Pitzl beam puller provides a perfect stability for the processing of solid wood elements, alveolar elements and wood soft fiber elements.

Accessories

Item no.	Description
55850.1000	Hook for beam puller
55850.2000	Bracing strip tensioner for beam pullers
55850.2100	Adapter ring for bracing strip tensioner
